THE GIRLS AND THE WIVES. Somebody has written the following about

God bless the girls, Whose golden curls

Blend with our evening dreams; They baunt our lives Like spirit wives, Or-as nairds haunt the streams They southe our pains, They fill our brains With dreums of summer hours;

God bless the guls,

God bless their curls.

God bless our human flowers. The wives, we think, are quite as deserving the girls-therefore the following is respectilly submitted

God bless the wives. They fill our hives With little bees and honey . They ease life's shocks, They mend our socks. But-don't they spend the money

They heal us quick-That is, if they love us; If not, we die, And yet they cry And place tombstones above us.

When we are 'k:

Of roguish girls, With sunny carls, We may in fancy dream; But wives-true wives-Throughout our lives, Are everything they seem.

Relief of Neuralgia.

As this dreadful disease is becoming more prevalent than formerly, and as the doctors have not discovered any method or medicine that will permanently cure it, we simply state that for some time past a member of our family has suffered most intensely from it, and could find no relief from any remedy applied, until we saw an article which recommended the application of bruised horse-radish to the face, for toothache. As neuralgia and gooth ache are both nervous diseases, we thought the remedy for the one would be likely to cure the other, so we made the application of horseradish, bruised and applied to the side of the body where the disease was seated; it gave almost instant relief to the severe attack of neuralgia. Since then we have applied it several times, and with the same gratifying results. The remedy is simple, cheap, and may be had within reach of every one .- Laurensville Berald.

Cure for Headache. A work has recently been published in Paris, by an eminent physician, in which he describes a new remedy for headache. He uses a mixture of ice and salt, in proportionof one to one half, as a cold mixture, and this he applies, by means of a little silk gauze, with a rim of gutta percha, to limited spots on the head where rheumatic headaches are felt. It gives instantaneous relief. The skin is subjected to the process from halt a minute to one and a half minutes, and is rendered hard and white. It is good in crysipelas and disease of the

A Soldier's Life.

A soldiers life is a hard one. It is full of privations. It is hardly one that would be selected by the indolent or the luxurious It is one of toil and care, and no little endurance. Yet it is remarkable how well a soldier's life agrees with even many of those whom we have accustomed to consider effeminate. We have personally known several young men of feeble health and indifferent physical staming who, having "gone to the war," have returned robust, hearty, vigorous, and substantial .-Some of them whom we certainly believed would soon be carried to their graves by a camp-life have, on the contrary, been 1egulary built up into stalwait men by the hardships they endured, and owe the promise of a long and healthy life enthely to the extraordinary change broughs about by military discipline and duties. We dare say that there are cases in which sleeping on the ground, the fatigue of heavy marches, wet clothing, a poor diet, and so on, have exercised a different effect. Death has visited many, no doubt, simply because they were subjected to such trials; but no instance of that kind has come under our observation, while we have been an eye witness to a number of instances, in which sickly men have been transformed by a soland physical excellence.

Great Bread Riot in Richmond.

THE OUTUREAR A GENERAL ONE. DISTRESS AND DESTITUTION AMONG THE PROPER

Colonel Steward, of the 2d Indiana Carfalry, who was confined in Libby Prison, Richmond, foreshe time after his capture by the Rebels, arrived InsBaltimore, having been exchanged. The Colonel confirms in all the main points the previous accounts of the bread riots and distress in the Rebel Capital. Lie was himself un eye withess, and could not be mistaken. The chief insurrectionary movement, or demonstration, was made on Thursday last. There were between five and six hundred wormen and children engaged; in, it, " They appeared upon the streets in a condition of terrible distress and destitution, demanding bread to brevent them from starvation, and in some instances forced their way into stores,

taking what they could get.

At this juncture General Wieder appeared before the distracted crowd and made an address, appealing to them to demist and disperse, but they peremptorily refused to do so, declaring they must have comething to eat or perish from hunger. The General then sent for Jeff Davis, who soon appeared in the presence of the mob aud made'a speech, lle counselled forbearance upon the part of the populace, promising to render whatever was in his was the "right man in the right place." power to alleviate their Suffering condition. Upon this assurance being given, after some time the crowd dispersed, retiring to their homes, but not until assured they would be supplied with daily rations by the Government authorities.

After President Davis had retired from the scene, a renegade Rebel General, formerly: of Indianapolis, ludiana. stepped cal observation and experience, that the circumstances, and unless more and better supplies of food and clothing were obtainsble, the thing would be all up with them. This confession was openly made, it is believed, in the presence of Jeff Davis.

The scenes attending this demonstration are described as terrible and distressing in the extreme.

Colonel Steward, from whom the above facts are gathered, is well known, and is a. highly respectable gentleman.

"Although are from home, yet we have been informed by good authority that there is a portion of the people in the Old Keystone State, that have entered into a solemn compact, and openly declared their intention to refuse to support the Government in this its hour of trial and danger. Now indeed there can be nothing that will more pain a true Union-loving man, and especially a Soldier, who has left his home and all that is near and dear to him, and taken up arms to fight the enemies of our country who are trying to destroy the best Government the world has ever seen, to know that there are some at home of such debased principles as to give aid and comfort to the Rebels, by joining in with the 'Knights of the Golden Circle," whose object is to cripple the Government, and bring about a reign of terror and anarchy, such as the world never yet saw.

loval man and press to stand up boldly in defence of the Government against all it enemies. For surely our Government is worth supporting, for all that we have we got through the blessings of a free government, and "with a united Government, wel administered, we have nothing to fear, and without that nothing to hope for." our duty is plain and simple, and it is not left to our choice; but justice and humacity compel us to lend our unqualified support to the Government, and crush this wicked rebellion. And with a united people, it is he belief of your humble servant that this rebellion can be crushed before the close of the Spring campaign. But should the Copperhead faction succeed in accomplishing their fiendish desire, this war will never be brought to a permanent settlement. But let us join heart and hand, and neither loving our lives nor our money, but our Union then we can expect Victory to perch on our banner, and peace and prosperity to crown our land and nation. And then, too. will our memories be cherished with the warmest emotions of gratitude and pleasure

RUSSELL'S SCREW POWER Combined Mower and Reaper, WITHOUT COG GEARING.

The Lightest Draft Mower in the World. TT is the object of Farmers in purchasing a Muchine to buy the best and cheapest. ing Russell's Screw Power. The great amount of power lost in over-

coming the friction of all Cog-geared Harvesters is saved in the Screw Power, by which we can offer the lightest draft Mower and Resper in the world. This fact has been fully demonstrated by the various tests by Dynamometer and otherwise, to which the their new habitation. machine has been subjected during the last two seasons. Among the various points of superiority in this machine are the following: The use of open malleable iron guards, with a steel plate or face, ground to a cutting edge.

This, with the knives, gives a perfect sheer Double Hinged Finger Bar .- No Mower can do good work, on all kinds of meadows, without a flexible bar. This bar can be raised and securely fastened, while passing

from field to field. Patent Adjustable Reel, performing its work equally as well upon rough ground as upon a level field.

There is no side Draft, or weight upon the horses' necka. New and peculiar form of Shoe, which will not clog when mowing, with a light play when the Reaper is attached. The subscriber, who is Agent for this ma-

chine, has fully tested it the last season, in wheat, grass, clover and oats, and feels satisfied that all who see this machine work will have no other.

A specimen machine can be seen by calling on the subscriber, near Gettysburg, on the Harrisburg road. WILLIAM WIBLE, Agent.

CERTIFICATES. We certify that we went to the farm of William Wible last harvest for the purpose of examining the work done by him with Russell's Screw Power Mower and Resper. We found Mr. Wible cutting some of the

any other machine. It is the lightest draft | machine we ever saw.
